Koduru Sai Swarupa

Srikakulam, Andhra Pradesh, India
8121981056 • saiswarupakoduru316@gmail.com

Objective

Passionate and detail-oriented Electronics and Communication Engineering graduate, eager to join a dynamic team where I can leverage my technical expertise, communication skills, and innovative mindset to deliver exceptional results and contribute to organizational success.

Personal Information

Date of Birth: 15 June 2001
Gender: Female
Nationality: Indian

Education

Rajiv Gandhi University of Knowledge and Technologies (RGUKT)
Bachelor of Technology (ECE), Aggregate: 8.2/10 — *Jul 2018 – Apr 2022*

Rajiv Gandhi University of Knowledge and Technologies (PUC)
Pre-University Course, Aggregate: 8.4/10 — *Jul 2016 – Jul 2018*

Government High School, Kotturu
10th Class, Aggregate: 10.0/10 — *Jun 2015 – Jul 2016*

Skills

Programming: Python, C, Java, C++, OOPs, DSA (Java)
Database: DBMS (SQL)
Cloud: Amazon Web Services (AWS)
Reasoning: Data arrangements, blood relations, coding-decoding, clocks, calendars
Tools: Google Workspace, Excel, PowerPoint, Word, Zoom, Microsoft Teams
Languages: Telugu (Native), English (Proficient)
Corporate Training Exposure: Trained for TCS, Accenture, Cognizant recruitment assessments

Projects

Smart Dustbin Using Arduino: Sensor-based trash bin that detects nearby objects for automated waste disposal.
E-Voting Machine Using Verilog: Secured and user-friendly voting system.
Secured Vehicle Parking System Using FPGA: Efficient and safe parking allocation.
Vehicle Accident Prevention System: Pulse detection sensors to prevent accidents.
Home Security System (Arduino): Motion-detection-based intrusion alert system.
Bluetooth Controlled Car: Smartphone-controlled car using Bluetooth.
1x3 Router Using Xilinx: Efficient network traffic routing.
Smart Alarm Using Xilinx: Programmable alarm with multiple triggers.
Traffic Controller Using Xilinx: Dynamic traffic signal controller.
Image Processing Using Verilog: Edge detection, filtering, and enhancement hardware modules.
Railway Ticket Booking System: Mini project.
Vehicle Rental Management System: OOPs concepts using Java.
Hospital Management System: OOPs-based project using Java.

AWS Cloud Implementation

- Set up and managed S3 buckets for scalable storage.
- Deployed and maintained EC2 instances for hosting.
- Configured Load Balancers and Auto Scaling groups.
- Used IAM for user role management and policy control.
- Integrated EFS and EBS for persistent storage.

Work Experience

Parul University, Gujarat
Technical Trainer
Contributed to academic and technical growth through teaching and mentoring students.

FacePrep
Associate Trainer
Delivered technical training for engineering students. Worked as Trainer Activity Tracker (TAT) — tracking schedules, performance, and reporting.

Six Phrase
Senior Technical Trainer
Delivered technical training and made students more practice-oriented using HackerRank and LeetCode.

Company-Specific Technical Trainings

Infosys Certification Training
- Trained students in problem solving aligned with Infosys recruitment and certification standards.

Accenture Training
- Prepared students in problem-solving, coding rounds, and cognitive assessments used in Accenture hiring.

Cognizant GenC / GenC Next Training
- Conducted training on technical assessments.

Capgemini Pseudo Code & Aptitude Training
- Delivered training for Capgemini-specific modules including pseudo code writing and logical reasoning.

Colleges Visited / Associated With

VIT University (Bhopal), GITAM University (Visakhapatnam), Parul University (Gujarat), KIET Engineering College (Kakinada), KL University (Vijayawada), VEMU Institute (Chittoor).
